[Linkedin](#)

Motivated full stack developer with strong foundation in HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Build responsive web applications through academic and personal projects. Quick learner with a passion for building user-friendly, scalable solutions

PROJECTS

Personalized Fitness Tracker and Meal Planner Website

Technologies: React.js, Express, CSS, MongoDB

Created a full-stack fitness tracker and meal planner using MongoDB, Express, React, and Express.js to help users manage workouts and diet plans.

Food Delivery Web Application

Technologies: React.js, Express.js, CSS, MongoDB

Developed a full-stack food delivery website using the MERN stack, allowing users to register, log in, browse food items, manage their cart, and place orders. Included secure user authentication and full CRUD operations for user profiles, food items, and orders

Personal Portfolio Website

Technologies: React.js, Express.js, CSS, MongoDB

Built a full-stack portfolio site using React, Node.js, Express, and MongoDB. Developed responsive UI, REST APIs, and secure admin authentication. Deployed for public access

To-Do –App

Technologies: React.js, Express.js, CSS, MongoDB

Built a task management app using React, Node.js, Express, and MongoDB enabling users to add, edit, and delete tasks dynamically with RESTful APIs and Axios handling.

Mini Project

To-Do-App

Technologies: HTML, CSS, JavaScript

Built and interactive To-Do List web application using HTML, CSS and JavaScript, focusing on real time DOM manipulation, task creation and deletion, input validation .Implemented dynamic event handling without external libraries, showcasing strong front-end development skills and clean, modular coding practices. This project enhanced my proficiency in JavaScript, improved my understanding of DOM events, and strengthened my ability to build user-friendly, scalable applications—key skills for a full stack developer role.

EDUCATION

MERN STACK DEVELOPER | 2024-2025

G-TEC CENTER OF EXELLENCE,
PERITHALMANA, MALAPPURAM

BA HISTORY |2021|2024

University Of Calicut (Government Arts and Science Collage Mankada)

Industrial Visit

Infinite Open Source Solutions LLP - Cyber Park Kozhikode Industrial Visit | August 2025

- Observed real-time project development workflows including software deployment, version control, and client communication.
- Interacted with experienced software engineers and learned about their agile development practices.
- Explored various open-source technologies and tools used by the company in their live project

SKILLS

TECHNICAL SKILL

HTML, CSS, JavaScript, Bootstrap, Responsive Design, J-Query, React.JS, MongoDB, Express.JS

SOFT SKILL

- Problem-solving & logical thinking
- Self-motivated and fast learner
- Detail-oriented with a focus on quality
- Adaptable to new technologies
